

September 1, 2022

To the voters of Ventura,

Liz Campos would be an asset to Ventura as a member of our City Council.

Her unique qualifications include a long track record of active support for the community, in particular under-served populations. She has worked relentlessly for justice as a leader within the climate movement, a spokesperson for tenant rights, and a founding member of the Westside Clean Air Coalition.

Her signature trait for influencing positive change is the way she approaches people regardless of their position or which side of an issue they represent—with unwavering respect. Even when exposing injustice or decrying the wrongdoing of a Corporation that is polluting a neighborhood, she manages to do so with grace and appreciation for each party's essential humanity.

Working as a mentor, leader, spokesperson, and teacher, she has been instrumental in raising the awareness of City Council regarding important environmental and justice issues that they can impact. She does so through relationship-building, uncompromising integrity and a fighting spirit bent not on defeating the enemy but bringing them along.

VCC is proud to wholeheartedly endorse Ms. Campos for her bid to join the City Council.

Kathleen Wheeler, Co-founder
